Bachelor's in Business Management (4-year degree)
University of Santo Tomas, Manila · Excellence Award · 2000 – 2004

LANGUAGES

English and French: daily professional use

PROFILE

Technical lead for the Dynamics 365 and Power Platform estate of a five-entity international group. I design the architecture and security model, build in C# and low-code, and work with users until the tools are adopted. Ten years of international customer service before IT: I build tools for the people who use them.

70 k€	5	440+	10 yrs

PROFESSIONAL EXPERIENCE

Web & CRM Developer · Dynamics 365 Solution Architect — 2023 – present

International consumer-electronics group (5 entities) · Brittany

- **In-house API layer:** about 15 Dataverse Custom APIs in C#, published behind Azure API Management, replacing a third-party gateway for websites, e-shops and software.
- **Security:** fixed a CRM rated "weak" by an internal audit. Passwords moved from MD5 to BCrypt, column-level security, least-privilege roles mapped to Entra ID groups, secrets in Key Vault, tenant hardening.
- **ALM and governance:** DEV → TEST → PROD pipeline with managed solutions in Azure DevOps; co-author of the development charter used by all five entities; review of vendor deliverables.
- **FinOps:** €70k saved per year by right-sizing licences and scheduling Power Automate clean-ups.
- **Customer service and AI:** omnichannel Customer Service Workspace (e-mail, chat, phone, reviews) and a front-line AI chatbot with handover to a human agent. Oversaw OpenAI integrations.
- **Adoption:** release procedures, documentation, and direct work with after-sales, marketing and logistics teams.

International customer technical support — 2021

Same group, logistics entity

Priority cases in French and English on Dynamics CRM and a custom ERP. Consistently among the top performers.

EARLIER CAREER

WordPress developer (part-time) · Global insurance and assistance group · France — 2020
Assistant systems administrator (internship) · Private school · Brittany — 2019 – 2020
Web & marketing manager (part-time) · Printing company · Dubai — 2015 – 2018
First-class flight attendant · Cabin supervisor · International airline · Dubai — 2007 – 2017
Life insurance sales advisor · Life insurance company · Philippines — Earlier

PERSONAL PROJECTS

AssurDemo · Fictional insurance customer portal on Power Platform: Copilot Studio assistant, quotes, claims with AI photo analysis (AI Builder), PDF reading with advisor approval. In progress.

Cynth-ia · Health app (Python, AWS, OVHcloud): AI reads X-ray and MRI findings and drafts a rehab plan that the clinician reviews and signs. Notifications for clinician and patient.

DynamicsCustom · Browser extension for model-driven apps: colour-coded areas, one-click copy and paste, workarounds with no deployment.
